ProPhotonix Limited
("ProPhotonix" or "the Company")

ProPhotonix to Exhibit Custom LED and Laser Solutions at Vision 2014 in Stuttgart, Germany

ProPhotonix Limited, (London Stock Exchange - AIM: PPIX and PPIR; OTC: STKR), a designer and manufacturer of LED illumination systems, laser diode modules and a distributor of premium vendor's laser diodes, is pleased to announce that it will exhibit a range of custom LED and laser solutions for applications including inspection, sorting & non-industrial vision applications at Vision 2014, Stuttgart, Germany, November 4th-6th, Hall 1 Booth B32.

With over 20 years' experience in the design and manufacture of custom LED solutions for a wide range of vision applications, ProPhotonix will showcase solutions to key illumination challenges; uniformity, power and control, wavelength optimisation and miniaturization. Illustrated through a range of custom products, displays will include a 36mm line light used in inspection in the tobacco industry, a highly uniform backlight and an extremely powerful line light used in demanding sorting applications.

ProPhotonix will also exhibit its full range of off-the-shelf solutions for vision applications, including the COBRA & LOTUS Series of LED line lights, the SpecBrights series of area, ring & spot lights and the 3D PRO series of structured lights lasers. The 3D Pro display will incorporate the recently launched green structured light laser, 3D Pro Laser Green.

David McGuinness, Director of Sales EMEA at ProPhotonix said of the exhibition "At ProPhotonix, we are committed to solving challenging illumination problems for our customers. We look forward to demonstrating our capabilities at Vision 2014."
