ProPhotonix Limited
("ProPhotonix" or "the Company")

ProPhotonix to Exhibit LED and Laser Solutions at Photonics West in San Francisco, February 10th – 12th

ProPhotonix Limited, (London Stock Exchange - AIM: PPIX and PPIR; OTC: STKR), a designer and manufacturer of LED illumination systems, laser diode modules and a distributor of premium vendor's laser diodes, is pleased to announce that it will exhibit a wide range of LED and laser solutions for applications including 3D measurement, non-industrial vision applications, medical and biomedical applications at Photonics West 2015, in the Moscone Center, Booth 1100.

With over 20 years' experience in the design and manufacture of laser solutions for a wide range of applications, ProPhotonix will be exhibiting a range of new products including a 488nm Photon laser module, a compact 520nm laser module and a high powered 405nm fiber coupled laser module, as well as a long line structured light laser.

A range of off the-shelf lasers will also be exhibited, including the 3D PRO Laser range of structured light lasers and a range of Photon modules used for applications from patient positioning to industrial and biomedical applications.

ProPhotonix' OEM LED Capabilities will also be represented and displays will include a miniaturisation display incorporating a tiny ring light used in dental applications, as well as an LED solution for endoscopy. Also on display will be an LED solar simulator, demonstrating the Company's ability to produce multispectral light sources.

Jeremy Lane, Managing Director of ProPhotonix' Laser Operations said of the exhibition, "We are delighted to be exhibiting at Photonics West again and look forward to displaying our new products."

About ProPhotonix

ProPhotonix Limited, headquartered in Salem, New Hampshire, is an independent designer and manufacturer of diode-based laser modules and LED systems for industry leading OEMs and medical equipment companies. In addition, the Company distributes premium diodes for Ushio (formerly Oclaro), Osram, QSI, Panasonic, and Sony. The Company serves a wide range of markets including the machine vision, industrial inspection, security, and medical markets. ProPhotonix has offices and subsidiaries in the U.S., Ireland, U.K., and Europe. For more information about ProPhotonix and its innovative products, visit the Company's web site at www.prophotonix.com.
