ProPhotonix Limited  
("ProPhotonix" or "the Company")

**ProPhotonix adds new Laser Diode from Ushio to product range.**

ProPhotonix Limited (London Stock Exchange - AIM: PPIX, OTC: STKR), a designer and manufacturer of LED illumination systems and laser diode modules with operations in Ireland and the United Kingdom, today announces the addition of a new red laser diode from Ushio Opto Semiconductors, Inc. to its product offering.

The new HL63263DG offers high optical output power (200mW) at a wavelength of 638nm and is ideally suited for use in show laser systems or as a light source for optical equipment. The new product is offered in a compact 5.6mm package.

Commenting on the launch of this new laser diode, Jeremy Lane, Managing Director of Laser operations said "The addition of this new red laser diode from Ushio to the product range demonstrates ProPhotonix' commitment to offering our customers a choice of diodes, ensuring that they have the optimum solution for their application."

For more information on the new laser diode visit [www.prophotonix.com](http://www.prophotonix.com) or visit us at Laser World of Photonics in Munich, Germany, Hall B3, Booth 301.
