ProPhotonix Limited

("ProPhotonix" or the "Company")

ProPhotonix Launches New Website – www.prophotonix.com

ProPhotonix Limited (London Stock Exchange - AIM: PPIX & PPIR, OTC: STKR), a high technology designer and manufacturer of LED illumination systems and laser diode modules, with operations in Ireland and the United Kingdom, today announces it has launched a new responsive website, www.prophotonix.com.

The new website features ProPhotonix' four main product categories providing easy navigation to Laser Modules, Laser Diodes, LED products and UV LED Curing Systems pages. Additional content is provided across the product and applications sections to help customers with their search. With this launch, ProPhotonix has upgraded its popular [Laser Diode Selector](#) which allows users to see the full range of laser diodes that meet their specifications, downloading relevant datasheets and added a [new Laser Module Selector](#) to help visitors to see the laser module ranges most relevant to their specification criteria.

Tim Losik, President and CEO commented, "ProPhotonix recognizes the need to provide high quality information about our products, solutions and applications to OEMs and engineers to help them to specify the optimum solution for their application. The new website ensures that users can easily navigate to the best solution for them."
