ProPhotonix Limited  
("ProPhotonix" or "the  
Company")

**ProPhotonix to Exhibit Hyperspectral LED Line Lights and Custom Laser Modules at Photonics West in San Francisco, 30<sup>th</sup> January – 01<sup>st</sup> February 2024**

ProPhotonix Limited a designer and manufacturer of LED illumination systems and laser diode modules with operations in Ireland and the United Kingdom, part of the Exaktera group, will exhibit its latest hyperspectral LED lighting and custom laser-based solutions at Photonics West, San Francisco, Booth 4040.

ProPhotonix will display examples of custom laser modules designed for specific customer applications from robotic guidance to patient alignment. With more than twenty years' experience working in partnership with OEMs to deliver customized laser diode-based solutions for a wide range of applications, ProPhotonix has developed extensive expertise in the optical, mechanical, and electronic engineering of laser modules to address the most detailed of specifications. At Booth 4040, ProPhotonix' team of engineers will be available to answer any questions you may have and to assist you in configuring your laser solution.

ProPhotonix will also exhibit its latest COBRA HyperSpec hyperspectral LED line light. The recently launched COBRA HyperSpec Visible focuses exclusively on the visible band between 400nm and 700nm. Demonstrating a broad, flat, and fuller spectrum, the COBRA HyperSpec Visible provides an ideal solution for a wide range of color inspection applications such as color integrity and surface finish inspections, and demonstrates excellent color rendering.

Tom Cinque, Director of Sales Americas, ProPhotonix. "ProPhotonix is looking forward to meeting customers at Photonics West 2024 and demonstrating our range of LED and laser solutions."

ProPhotonix is part of the Exaktera group. Through its expertise in innovative light-based

technology, Exaktera enables and improves critical and game-changing systems. ProPhotonix is excited to be co-exhibiting with sister companies Advanced Illumination and Z-Laser at the show.

**About ProPhotonix**

ProPhotonix Limited, headquartered in Salem, New Hampshire, is a high-technology designer and manufacturer of diode-based laser modules and LED systems for industry leading OEMs and medical equipment companies. In addition, the Company distributes premium diodes for Ushio, Osram, QSI, Panasonic, and Sony. The Company serves a wide range of markets including the machine vision, industrial inspection, security, and medical markets. ProPhotonix has offices and subsidiaries in the U.S., Ireland, U.K., and Europe. For more information about ProPhotonix and its innovative products, visit the Company's website at [www.prophotonix.com](http://www.prophotonix.com).
